

nodee

AI-Powered Merchant Intelligence.

We help merchants increase order value by identifying cross-sell and up-sell opportunities using unified purchase and pricing data.

nodee.co

Merchants lose revenue due to poor cross-sell and up-sell data

Selling one additional item on purchases of 5+ items:

~1,000 sales per month

~\$20 average item price

➡ $\approx$ \$240,000 in incremental annual revenue is missed per merchant

Solution

Unified purchase and pricing intelligence.

Unlocked cross-sell and up-sell opportunities.

Data-driven decisions made with competitive context.
